New Councillor

We are delighted to welcome our new Councillor Pete Durant who has just been co-opted and is looking forward to working with the Parish Council.

We would also like to thank Paul Darlow for his work as a Parish Councillor this year and although he has stepped down from being a Councillor, he will remain an active member of our Environmental Working Group.

Planning Consultation

The Parish Council is very grateful to everyone that submitted planning comments to the Clerk and/or to the SHDC Planning Portal. These comments have helped the Council in the drafting of its own comments.

The Parish Council was delighted with the attendance at the EGM both in person and through Zoom. The Zoom sessions so far have proved popular and we intend to continue offering Zoom attendance at our meetings.

Permission for notices in Newton

Readers are reminded that the Newton Ferrers Green outside the WI Hall and the Green Triangle are owned by the Parish Council. Please contact the Clerk for permission in good time before placing notices or banners on these sites.

Construction Management Plan (CMP)

The Parish Council in conjunction with South Hams introduced a CMP Template that is a required document when submitting any Planning Application with the Villages. You can find it here <http://www.newtonandnoss-pc.gov.uk/documents> under "planning" and we would recommend that you make sure your Architect/Project Manager is aware and uses the template as part of your submission.

Planning Applications submitted without a CMP and/or not using the Template could be delayed.

Tree planting gets underway

After the Parish Council's successful application for trees from The Woodland Trust earlier this year the weather finally moderated sufficiently so that we were able to re-plant our trees into their correct places. About 14 enthusiastic volunteers had a great team event siting the trees into the corners of Butts Park.

These plantings supplement the trees sited at the Primary School (as a part of the Forest School's initiative), Newton Park and Bridgend. Dillons, Noss Green and other sites will also be receiving their trees, with the intention of completing all work by the end of November. This will help our environment not only in absorbing carbon dioxide but should widen the wildlife value of Butts Park (and other areas).

Our thanks go to the green fingered volunteers from the Yealm Environmental Group for their expertise with a spade on the day. Also a big thank you to Yealm Community Energy for their grant to support the tree guards/stakes to ensure these young trees get off to a good start.

Paul Hardy, Climate Emergency and Biodiversity lead for N&N Parish Council

Reporting recycling issues

Councillor Keith Baldry, South Hams District Council (SHDC), has asked that residents continue to report any missed recycling collections as without this information, SHDC are not able to investigate and try to get them collected or penalise the contractor for the lack of service.

December Parish Council Meeting

The next meeting will be held in the Newton and Noss Village Hall in Noss Mayo on Thursday 9th December 2021 at 7.00 pm. Parishioners are welcome to attend either in person or by Zoom. The agenda and Zoom details will be published on the website and noticeboards a week before the meeting.
